Map Rail, Display Rail, Exhibit Strips and Clip-strips

Maprails to mount on, below or apart from Dry-Erase Boards
Many options Call us!

Main Types

- **Cork Style - use Pins**
Available with Tan Natural Cork of Forbo 12 color cork (page 4) for colors and how to do a complete wall in cork
- **Clips or Grippers**
No need to mess with pins gripper style catches papers
- **Cork and Grippers Combo.**
VersaStrip, Claridge #79 or Claridge #94
- **Steel Dry Erase with room to use Magnets**
Our printed steel dry erase boards are magnetic receptive, so many customers leave an area blank for use as a bulletin board but with magnets

Where to use Maprails

Mounted to Boards or directly to wall

Our holders (depending on model) can be mounted to existing dry erase boards or even butted mounted below board but on the wall.

Directly onto wall or partitions

Many customers run a rail or strip at a 7 ft in height around a whole room. This works well but if you really need to pin anyplace look at our Forbo Colored Cork (page4) which will turn a complete wall into a attractive tackboard.

Board to right ==>>
shows our custom printed steel dry erase on left that takes a magnetic card holder and is built into a combo cork board.
Call us for Printed Dry Erase, Cork, and magnetic solutions for al your visual and display needs

What is Forbo Cork

Forbo Cork is Environmentally Friendly and always looks like new. Forbo Bulletin Board Cork is made from pure natural ingredients that combine under heat and pressure to create a smooth, uniformly dense, suede-like surface of unsurpassed beauty and durability. Expanded range of 12 contemporary colors that go all the way through to the burlap backing. For some great application pictures below.

Forbo Cork is a 1/4" thick uni-colored linoleum with a self-healing surface that accepts pins and tacks. It is twice the density of natural cork and is widely used in educational and commercial applications. Made from cork, linseed oil, wood flour, pine resin, jute and pigments. We sell the Forbo Cork under the Tac-A-Cork name but it is exactly the same product distributed by Claridge as Claridge Cork, Walltalkers/RJF as Tac-Wall, Mark-a-Wall as Tac-a-Cork, Marsh as Plas-Cork and others as ProCork and Bancork EZ-Clean. If ordered from us you will get genuine Forbo Cork. We pull from multiple distribution points so we are able to get you the colors you want in the quantity you want in the time frame you require.

We can supply most of the Maprails / exhibit rails that use cork with the Forbo colored cork in addition to natural cork
