We accept purchase orders and extend open account terms to hospitals.

## Choose Your Layout!

Whether you're a smaller hospital in need of a single layout or a larger hospital in need of multiple layouts to accommodate various departments- such as Maternity, Neo-Natal, Geriatrics, ICU, etc.- we've got the best board layouts for your facility.

Visit the [www.ahutton.com](http://www.ahutton.com) Hospital Boards Home page and click "LAYOUTS" for hundreds of layout ideas that you can simply copy and modify- or feel free to start from scratch and build your own! We can even provide subtitles in any language you need at your request. You can submit ideas to our graphics department via fax, e-mail or even by phone call.

## Customize Your Design!

We have 1000+ pieces of hospital-themed clip art to choose from on our website to allow for maximum customization.

Address your special issues such as, but not limited to:

- Rounding - Pain - Language - Turning - Family
- Fall Prevention - Ambulation - Discharge - Scheduling

## Patient Satisfaction Scores will Quickly Increase with Our Boards!

A professionally designed whiteboard can help hospital staffs communicate more efficiently and can ease the concerns of even the most worried patient or family member. Let us increase your patient satisfaction scores in a way that really helps your patients.

## Custom Pre-Printed Information!

Our process allows you to get text pre-printed on your whiteboards that may vary from room to room. This might include department names, floor numbers, room numbers, and phone numbers.

## Surgical Safety Checklist

Debrief

Briefing	Time Out	Debriefing
Before Induction of Anesthesia (Circulator Initiates)	Before Skin Incision (Circulator Initiates)	Before Surgeon and Patient Leave the Room (Circulator Initiates)
*Team Members should stop activity and respond to each question of the briefing, time out, and debriefing.		
STEP 1	STEP 2	STEP 3
1. Has the patient been identified using two unique identifiers?	1. Is this the correct patient, correct procedure and correct side (read verbatim from consent)?	1. Circulator announces the results of the counts (instrument, sponge, needle as applicable).
2. Who are providers and what is the procedure site and side?	2. The site mark is visible	2. Circulator confirms exact procedure and diagnosis with surgeon.
3. Does this patient have any drug or latex allergies?	3. The safety strap is in place	3. Circulator confirms all specimens are accurately labeled.
4. Does the patient have a difficult airway or aspiration risk?	4. Images displayed and labeled	4. Were there any delays for this case? (Assign delay codes)
5. Is there a need for any anesthesia procedures before the incision (central line, block)?	5. Reports confirm site and side	5. Are there any permanent changes to the preference card? • Equipment or instrument malfunctions or issues
6. Confirm that all team members have introduced themselves by name and role.	6. Position correct.	6. What are the key concerns for recovery and management of the patient?
	7. Special safety concerns are addressed: • Appropriate pre-op antibiotic selected and started • DVT risk • Normothermia assured • Anticipated blood loss • Implants and equipment needed present • Fire risk	7. Are medications secured?

# Refurbish Hospital Dry Erase Boards or rebrand with new name and logos

## Much less expensive than new boards!

Are your existing boards ghosting and difficult or impossible to clean. We have the solution that works even with daily use of any hospital disinfectant. Resurface your existing boards quickly and economically with new graphics or a copy of your current graphics. Get the quality look your hospital deserves!

Or call us for pricing on new boards that will LAST!

Printed Magnets that overlay existing steel boards create a system that is practical, affordable and **CHANGEABLE**.

# OR

Peel and Stick (P&S) overlays that stick to any flat smooth surface for a cost effective, and more permanent solution.

These overlays can cover full boards up to 48"x96" or made as small as 1" x 1" to cover or add info to local areas. We have all the dry erase answers! We also have lens covers for snap frames by others. Please call for advise or pricing.

- Get the same great graphics as on our permanent Markasteel-MG.
- Overlays have same chemical resistant DaPlus surface as on our steel boards.

- Custom OR, Planning, Scheduling, and Disaster Recovery Boards with sizes up to 4' x 8'!
- We can make you just one board, or you can take advantage of our quantity discounts and save money by ordering more at a lesser cost per board! This special deal applies to all boards- even if they vary in sizes and layouts.

### Surgical Site Fire Risk Assessment

Alcohol-based prep solution had sufficient drying time (minimum 3 minutes)

Yes  No  N/A

(Circle appropriate option) Y N

\* Surgical site or incision above the xiphoid 1 0

\* Open oxygen source (patient receiving supplemental oxygen via any variety of face mask or nasal cannula) 1 0

\* Available ignition source (i.e., electrosurgery unit, laser, defibrillator, burr, fiber-optic light source) 1 0

**Total Score**

**Scoring:**

3 → High Risk

2 → Low Risk w/ potential to convert to High Risk

1 → Low Risk

**Huddle Boards**  
See our web site for great huddle board ideas that will make your teams work better together.

**Fire Risk Protocols**

**Score 3 → High Risk:**  
The circulating nurse and anesthesia provider take these precautions.

**Score 2 → Low Risk w/ potential to convert to High Risk**

**Circulating Nurse**

- Verifies fire triangle, including of the oxygen percentage
- Ensure appropriate draping to minimize oxygen concentration
- Minimizes ESU setting
- Assesses that enough time has for fumes of alcohol-based prep to dissipate (minimum of 3 minutes)
- Encourages use of wet sponge
- Ensures a basin of sterile saline are available for fire suppression

**Anesthesia Provider**

- Ensures that a syringe full of saline is available for procedures conducted within the OR
- Documents oxygen concentration
- Uses the MAC circuit for oxygen initially at FIO<sub>2</sub> of .30 using flow at least 12 L/min.

Base of floating steel before insert

In our efforts to provide hospitals and business with top quality and economical printed dry erase boards, we are proud to announce our line of Frameless Floating Magnetic Changeable Chemical Resistant Boards.

## Features:

1. Steel base gives it superior magnetic receptivity.
2. Offset floating frameless look mimics glass.
3. Price is higher than fixed boards but many times less than glass.
4. Daplus or DaPlus10 gives both extended life with freedom from ghosting and complete resistance to hospital disinfectants.
5. Changeability-can be accomplished in multiple ways with built in storage.
  - a. Multiple syntisol inserts can be placed under DaPlus10 lens cover.
  - b. Double sided insert can be coated on both sides with DaPlus
6. Inserts can be professionally laid out and made by us or you can use your own.
7. Boards are so magnetic receptive they work with our magnetic marker rings so you can keep markers on the board without a need for a tray.
8. Base steel has rounded corners for safety and are powder coated on back, front and sides.
9. Changing printed inserts only involves a minutes time and removal of 4 magnets. No tools needed.
10. Magnets to secure printed insert and lens cover are included in pricing.
11. See video, pricing and details at [ahutton.com/index-frameless.htm](http://ahutton.com/index-frameless.htm)

# Fall Risk Corridor Placards

We have the solution quickly tagging rooms where extra Fall Precaution need to be taken with the patient. Our printed placards along with our affordable corridor bracket gives you great flexibility and ease in marking rooms.

The pictured 2 sided 10"x11" placard with magnetic bracket can be had for \$6.29 in lots of 500. Single sided ones as little as \$4.50

# Ohio Aluminum Framing (OAF)

We Have just Sept of 2022 come up with our lower cost and lighter weight Aluminum framed Non Magnetic board. The steel panel has been replaced by .024" printed paper that gets our DaPlus Dry erase chemical resistant film overlay. Prices vary by quantity and size but if you don't need the board to take magnets you can save about 25%.

The frame, mounting and ability to take our plastic tray is the same for the magnetic and non magnetic versions.

Get our OAF Framed Boards in Magnetic or Non Magnetic versions!
