

AV carts

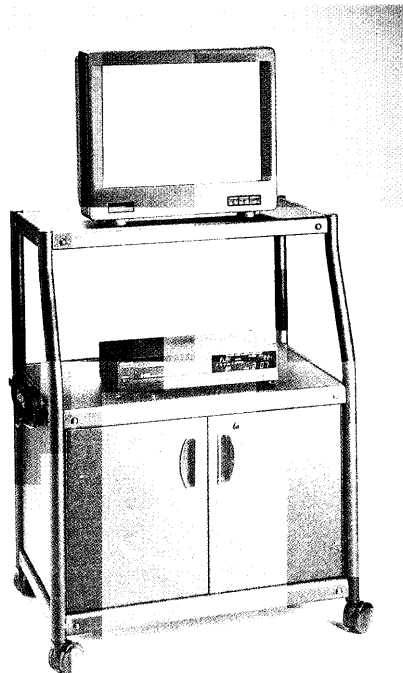

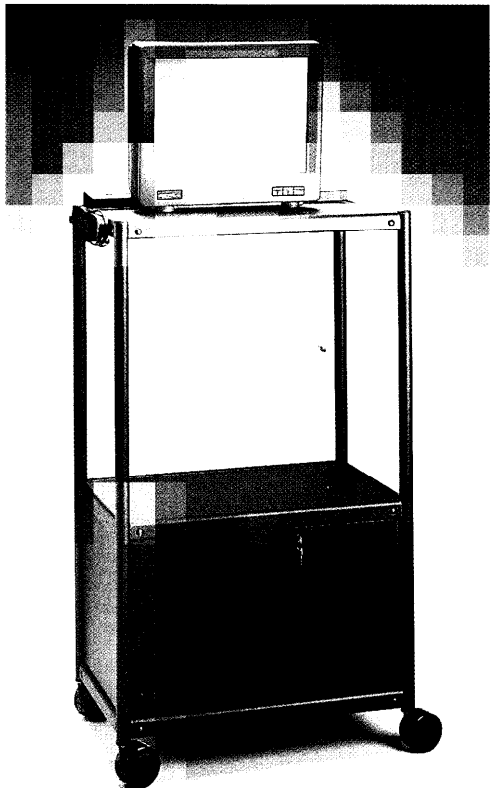

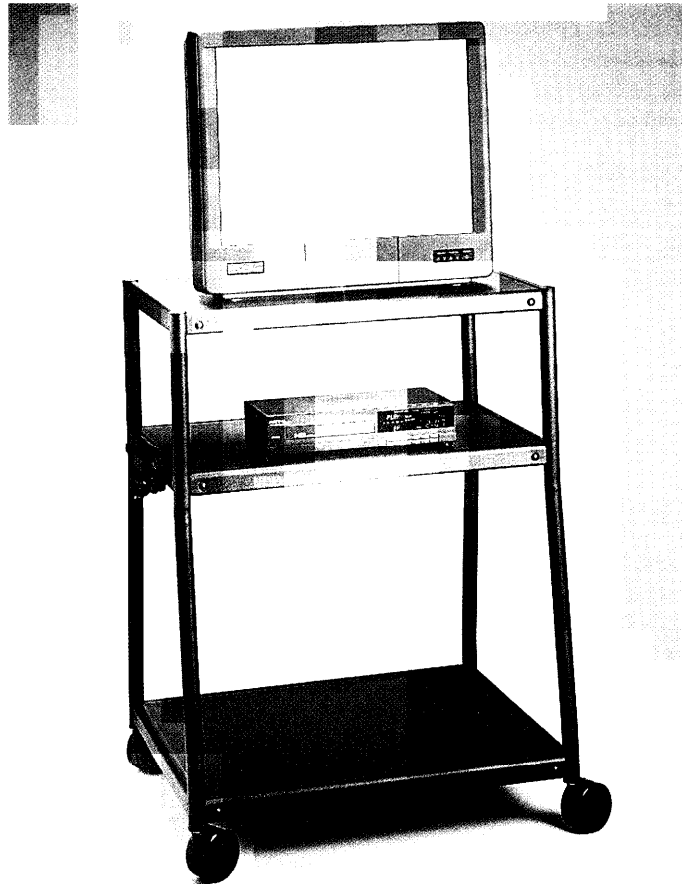

Moveable audio-visual carts available in three different styles to accommodate your equipment needs -wide body, adjustable height and fixed height. All carts will hold

20" (510mm) monitors. Quartet's contemporary design enhances the appearance of these heavy-duty carts. Each cart is solidly constructed of textured, graphite finish steel with radius edges to

create a look that will work in any conference room. Sleek, twin-wheel casters have a durable polyurethane tread engineered for superior mobility across any flooring, including carpeting.

Wide Body AV Carts

Ideal for large monitors up to 27" (685mm), this 44" (1120mm) high heavy-duty, wide body audio-visual cart features a broad base for extra stability. Equipped with three convenient shelves. UL/CUL-approved electrical strip included. Assembly required. Catalog # 88044

Fixed Height AV Carts with Locking Cabinets

Sturdy shelved unit holds a 20" (510mm) TV monitor, VCR or projector. It also serves as a basic utility cart - convenient for moving additional audio-visual supplies. The taller 54" (1370mm) model provides a slant bar on the top shelf to optimize viewing. Both carts feature two shelves and a locking cabinet. UL/CUL-approved electrical strip included. Assembly required.

Catalog #	Size
88140	40" high (1020mm)
88154	54" high (1370mm)
