

The top shelf of these carts adjusts to raise or lower AV equipment to desired level

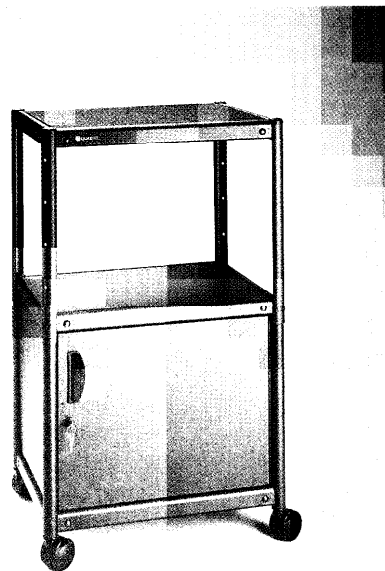

Adjustable Height AV Carts

For best viewing in any situation, these carts provide an additional feature—the height of the top shelf is adjustable to allow AV equipment to be raised or lowered to the most desirable viewing level. The 42" (1065mm) models can be adjusted to 5 heights, from 26" to 42" (660 to 1065 mm). The 54" (1370mm) high model adjusts to 10 heights, from 36" to 54" (900 to 1370 mm) high and includes a UL/CUL-approved electrical strip. Each unit supports monitors up to 20" (510mm). Non-slip rubber mat included. Assembly required.

AV Cart Accessories

Equip your audio-visual carts with accessories that maximize their usefulness.

Safety Strap

Secures monitor and other audio-visual equipment to shelf. The 8-foot (2.4 meters) safety belt can be fastened to shelf for maximum security. One size fits all shelves. Catalog # 88001

Cable-Lock Security System

Prevent theft. 5-foot (1.5 meters), vinyl-coated steel cable secures equipment with anti-theft mechanism on either end and two adhesive-backed mounting plates. Catalog # 88003

Accessory Pack

Provides cable lock security for additional equipment. Includes two adhesive-backed mounting plates. Catalog # 88005

Electrical Strip

Three-prong, 3-outlet electrical strip retrofits any cart. Cord may be extended to 20 feet (6.1 meters). UL/CUL-approved. Catalog # 88002
