

## Signs

Quartet signage systems are available for desktop, wall or window mount or standing on a pedestal. Whatever the application, Quartet signs communicate information effectively through shape, size, and color. Since most signs are located in highly visible and trafficked areas, Quartet signs are designed to look good while withstanding heavy traffic. Frames are durable and securely protect information. Pedestal stands are solidly constructed for maximum stability.

Item	Features	Size/Desc.	Product #	List Price
