ON-TIME SHIPPING

Claridge's On-Time Shipping program helps customers plan and manage schedules more effectively – and meet expectations for timely shipment of quality products. ENVIRONMENTAL PRACTICES

Claridge is committed to protecting and preserving our natural environment through a variety of ongoing programs. Claridge markerboards have achieved both GREENGUARD Certification and GREENGUARD Gold Certification. GREENGUARD Certification helps fulfill the goal of creating and maintaining healthy, high-performing buildings, schools and residences. Claridge Cork is made from the bark of cork oak trees without damaging the tree itself — making it both rapidly renewable and recyclable. Claridge carton and crating materials are composed of post-industrial and recycled materials. Tons of material are eliminated from the landfill waste stream through Claridge in-house recycling programs.
