

# Motowtractor units can help you move materials faster and better.

The SPC Motowtractor System offers unmatched versatility for your materials handling requirements:

**General warehouse duty** — a million and one products can be moved at lower cost.

**Institutions** — hotels, motels, hospitals can use them to handle laundry, refuse cans, supplies, light furniture.

**Automotive parts warehouses** — parts and components are picked, up to 40% faster.

**Electronics parts warehouses** — everything from TV sets to cartons of tubes and transistors move to the shipping area without lost time.

If you have need for an SPC Motowtractor unit for these or other applications, call or write for further information.
