

## Tenex® Flipbook™ Dry Erase Markerboards

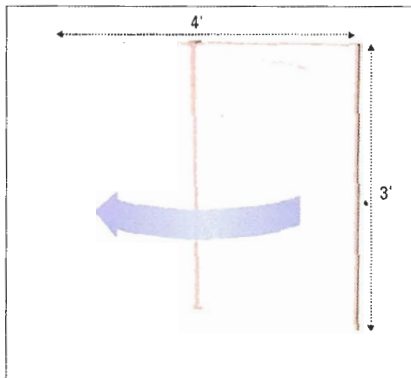

3 times more writing surface in less space!

- Multiple double sided panels dramatically increase writing surface.
- Control presentations by revealing information with the turn of each panel.
- Front panel closes to provide privacy and acts as a tack surface.
- Available in two sizes to accommodate your office space.

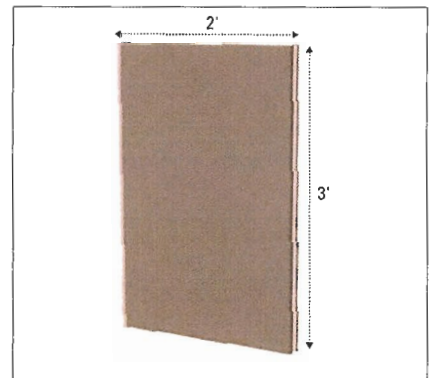

Introducing the next generation of markerboards that look better, work better and communicate better. An innovative "book style" design uses multiple panels, which turn to dramatically increase your writing surface and control presentations. Available in two sizes each in 3 or 4 panel versions. Both sizes are wall mountable, while the smaller size can also be used on open plan systems with a partition hanger (sold separately). The Flipbook's superior writing surface resists ghosting.

1 When open, the larger Flipbook™ occupies 4'x 3' of wall space.

2 When in use, panels turn to provide up to 36 sq. ft. of writing surface, 10% more than an 8'x 4' markerboard.

3 When closed, cover provides privacy and acts as a tack surface while occupying only 6 sq. ft. of wall space.

### A 4' x 3' Flipbook™ – wall mount only

No.	Size/Surface	Wt. Lbs	Each
FBW341000	4 Panel/36 sq.ft	25	\$495
