STC SURFACE MOUNT DISPLAY CASE

SUGGESTED INSTALLATION INSTRUCTIONS FOR SURFACE MOUNT DISPLAY CASES

Note: Complete installation hardware is included with each unit. If wall construction prevents the use of hardware as furnished, it is the responsibility of the customer to furnish the required fasteners.

1. Anchor steel mounting bracket to wall at desired height from floor.
2. Make sure angle is level before setting case.
3. Set case on angle.
4. Secure to angle through bottom or rear of frame with suitable anchors.
5. Secure through rear tube into wall with suitable anchors. If securing through tube is not possible, secure through rear of case into wall with suitable anchor.
6. For Sliding Door Units: Insert sliding doors by pushing the top of the door into the top track and then setting the bottom of the door into the bottom track.
