

RESURFACING & RETRO-FIT PANELS

Replace your old chalkboard or upgrade your current board with our Resurfacing and Retro-Fit Kits.

Both resurfacing solutions incorporate a P³ ceramicsteel (1/4" hardboard) panel and are available in a markerboard surface only. This allows the panel to fit easily inside the existing frame while completely covering the original surface.

RESURFACE PANEL KIT

BEFORE

The **RESURFACE PANEL KIT** features 1/4" P³ ceramicsteel panel, four aluminum trim pieces, screws (sufficient for the linear footage), and one tube of adhesive to easily resurface your existing board. Specifically designed and engineered to be installer friendly, the Resurface Panel Kit includes three L-shaped, aluminum extrusions and one J-shaped trim. Each kit comes with easy step-by-step instructions for resurfacing and installing your board.

AFTER

RETRO-FIT BOARD KIT

BEFORE

The **RETRO-FIT BOARD KIT** features 1/4" P³ ceramicsteel framed panel with pre-drilled holes. Also included are flathead screws and one tube of adhesive to offer an easy replacement solution for your existing chalkboard. The Retro-fit Panel Board Kit has an equally friendly installation and features a finished, pre-cut, framed panel. Each kit comes with easy step-by-step instructions for resurfacing and installing your board.
