

## Dry-Erase Boards

Quartet's melamine Mark 'N Wipe boards offer excellent write-on, wipe-off capabilities with dry-erase markers. More porous than porcelain, permanent markers should not be used on melamine surfaces. Without steel substrates, melamine boards are lighter than porcelain and non-magnetic. Proper care and cleaning will add life to this durable coating on tempered hardboard surface, making melamine marker boards an economical and lightweight alternative to porcelain.

Item	Features	Size/Desc.	Product #	List Price
