

Bulletin Boards

Cork Boards

Cork bulletin boards feature long-lasting, resilient cork that lasts year after year. The board's performance is guaranteed because, unlike other cork boards, Quartet cork boards are made of thicker more resilient cork. This is a dense, non-porous cork with cells so closely bonded together that there are no holes for light to shine through it. As a result, push pins are held tightly, and when pins are removed from the cork, the pin holes reseal themselves. Our cork boards have a dense, fibrous fiberboard backing, primed and sealed to reduce moisture absorption and resist warping. These dense fibers continue to hold push pins firmly and won't wear out. Quartet cork bulletin boards are designed to last for many years.

Item	Features	Size/Desc.	Product #	List Price
