## Porcelain Steel Skins

- Save on installation costs!
- Installation is easy with self-adhesive backing!
- No extra adhesive or supplies required!

Best-Rite introduces a revolutionary installation process for skins. Skins are available with a self adhesive backing. Remove the protective sheet and mount the skin onto the existing board. Forget about glue, contact adhesives and delaminating problems. Porcelain skins are crafted from 24-gauge steel with a furnace fused chalkboard or markerboard surface.

### PORCELAIN STEEL CHALKBOARD SKINS

STOCK#	HEIGHT	LENGTHS	COLOR	WEIGHT	PRICE
110S	4'	4' 6' 8' 10' 12'	Green / Black	2.25 lbs	\$10.15

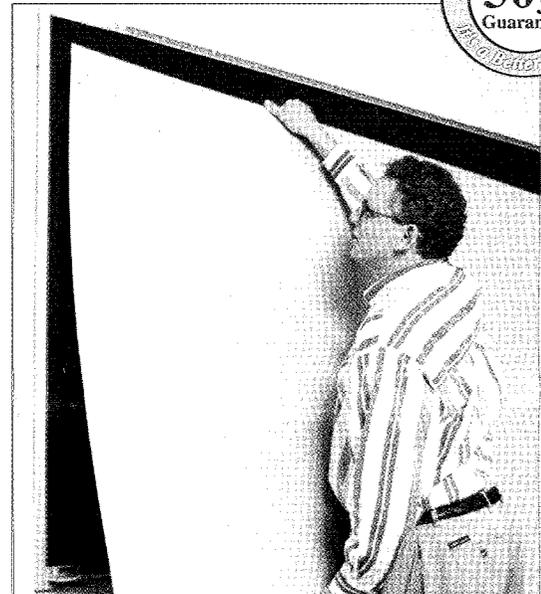

Ship in 2 weeks.  
Price per square foot based on standard sizes.

### PORCELAIN STEEL MARKERBOARD SKINS

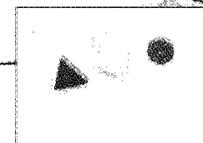

STOCK#	HEIGHT	LENGTHS	COLOR	WEIGHT	PRICE
208S	4'	4' 6' 8' 10' 12'	Off white	2.25 lbs	\$10.15
80-TM Cover bar / price per foot					\$6.05

Ship in 2 weeks.  
Price per square foot based on standard sizes.

*New! Now Self-Adhesive.*

Cover bar is powder coated to allow writing and erasing capabilities.

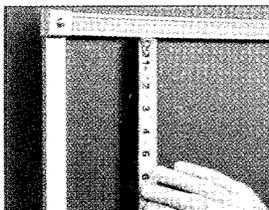

Durable porcelain coated steel is also magnetic.

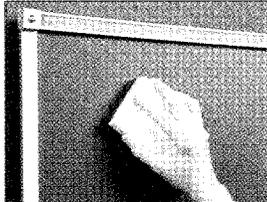

Polyfilm coating protects your new surface during the shipment.

## Installation is easier than ever!

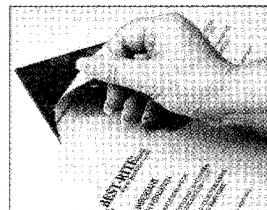

1 Measure the board surface area accurately.

2 Thoroughly clean the old surface. Test fit the new panel.

3 Spray a solution of alcohol and water on the surface to lubricate and retard the adhesive.

4 Peel away the protective backing, align the skin then apply a section at a time.

5 Apply pressure with a roller over the entire surface.
