

Stacked Shipments

To stop truckers from Crushing your order we put a **NO STACK** cone on top of your order. If there is not one there when the trucker delivers your order its almost certain goods are damaged.

Insist on full inspection or Refuse order if cone is missing. We want you to get your boards in good condition but you need to inspect for us.

Remember that signing “its OK” and later finding damage will result in you owning damaged goods that no one will replace for free!

Call Jennifer Hemstock x 113 or myself—Al Hutton x111 for more info !!!!
